

# THE TECH

VOL. XXVI. No. 11

BOSTON, MASS., FRIDAY, OCTOBER 19, 1906

PRICE THREE CENTS

## SOPH.-FRESHMAN CONTEST.

Information About the Annual Field Day to be held in November.

The events of Field Day and the rules and regulations governing them are as follows:

Event I. A football game will start promptly at 2.15 P.M., between eleven men from each class. The game to be two 25-minute halves, with a rest of 10 minutes between the halves. Current rules governing Intercollegiate football games to apply. Football teams must be on the field at 2.10 P.M.

Event II. A relay race of a mile and a half to be run by twelve men from each class, each man to run one-eighth of a mile. The sequence of runners shall be assured by the passing of flags from man to man, the successive runner to be stationary with one foot on the mark when he receives the flag. The rules governing New England Intercollegiate relay races will apply. The relay race will be run immediately at the close of the first half of the football game and men must be on the field at once.

Event III. A tug-of-war will be pulled immediately after the second half of the football game and men must be on the field at once. The number of men is limited to twenty-five from each class. No artificial means will be employed. Each contestant shall pull standing. The length of the pull shall not exceed five (5) minutes.

A tape shall be affixed at the centre of the rope and fifteen feet on each side of the centre tape there shall be two side tapes.

A centre line shall be marked on the ground, and fifteen feet on either side of the centre line, two side lines parallel thereto.

At the start the rope shall be taut, and the centre tape over the centre line, and the competitors shall be outside the side lines. The start shall be by firing of a pistol.

The pull shall be won when one team shall have pulled the "side tape" on rope of the opposing side over the centre line, or, at the end of five minutes, the team whose side tape is farthest from the centre ground line. The pull must be made within a "path" not exceeding fifteen feet in width.

No competitor shall wear boots or shoes with any projecting nails, springs or points of any kind, or make any holes in the ground with his feet or in any way before the start; or wilfully touch the ground with any part of his person but his feet. The "Anchor" only may pass the rope around his body and may wear a suitable belt.

Any direct interference by any coach or spectator in any event may render the side assisted liable to disqualification by the referee, and his judgment shall be final.

Points will be counted as follows: Football game, four (4) points; relay race, three (3) points; tug-of-war, two (2) points.

Numerals will be awarded to members of both the football teams actually participating in the game, but not exceeding a total of sixteen men, to be designated by the captain or manager of the team, by letter to the Chairman of the Advisory Council, on Thursday, Nov. 15; also to the members of the winning relay team and two substitutes, (the latter to be named on the day previous to the game,) and to the winning tug-of-war team.

The management of the games and all matters connected with same is vested in the Advisory Council, and may be delegated to any sub-committee it may appoint.

Football and whistles, flags for relay race, and flags and rope for tug-of-war, will be provided by the Advisory Council and referees, umpires, timers and other officials shall be appointed by it.

Any protest in connection with the above rules, must be filed with the Chairman of the Advisory Council not later than Saturday, Nov. 3.

**Gym Work.**—All who contemplate taking gymnasium work regularly in an organized class, should make application now for physical examination. The hours of the Instructor in Charge, W. C. Towne, are from four until six.

## A PRINCETON MAN FOR PRESIDENT.

Dean West of the Graduate School of Princeton University Called to the Leadership of Technology.

The Executive Committee of the Massachusetts Institute of Technology made public Wednesday the fact that Dr. Andrew Fleming West, of Princeton, had been formally invited to accept the presidency of the Institute of Technology as the successor of President Pritchett. This appointment is subject to confirmation by the Corporation of the Institute, but if Dean West accepts, which is a very likely thing, the confirmation will be a mere matter of form as the choice is thought well of by all connected with the administration.

papers concerning current educational topics. In his literary work he edited in 1888 an edition of the plays of Terence. In 1889 he prepared an edition of the Philobiblion of de Bury for the Grolier Club of New York, of which Dean West is a member. He is also the author of the "Alcuin" and the "Rise of the Christian Schools," which were published in 1892. His Latin Grammar is well known in preparatory schools all over the country. His work on educational topics has been for the most part in the form of magazine articles,

Dr. ANDREW FLEMING WEST.

Dean West, as he is better known in college circles than as Doctor, was born May 17, 1853, at Allegheny, Penn., and is the son of Reverend Nathaniel and Mary Tassey (Fleming) West. He was fitted for college in the private schools of Brooklyn and Philadelphia. He entered Princeton in 1870, taking the regular four years' classical course and was graduated in 1874 with a degree of Bachelor of Arts. He gained during his course at Princeton especial distinction in Latin and Greek. He was appointed to the chair of Latin at Princeton in 1883, and in 1901 he became Dean of the Graduate School.

As an author of classical works Dean West has gained considerable fame, and he has also published a number of interesting and valuable

but he has produced one long work on these subjects. This is "How to Improve Our Classical Training," a book pointing out the weaknesses in our modern colleges. His review of President Eliot's "Report on Elective Studies" has been reprinted in book form. His most prominent magazine article is on "Spirit and Ideals at Princeton," and appeared in a recent number of the *Educational Review*.

He has been honored by a number of institutions, including his own, with honorary degrees. In 1883 he received the degree of Doctor of Philosophy from Princeton, in 1897 that of Doctor of Laws from Lafayette, and in 1902 the especial distinction of Doctor of Literature from the University of

(Continued on Page 3.)

## CALENDAR.

FRIDAY, OCTOBER 19.

- 1.00 P.M. Meeting of the Exeter Club in 33 Rogers.
- 4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.
- 4.15 P.M. Glee Club Rehearsal at Tech Union.
- 8.00 P.M. Naval Architectural Society Smoker at Tech Union.

SATURDAY, OCTOBER 20.

- 1.00 P.M. Junior Class Nominations close at Cage.
- 1.00 P.M. Freshman Class Nominations close at Cage.
- 1.44 P.M. Mechanical Engineering Society leaves Back Bay Station for B. F. Sturtevant Co.
- 2.07 P.M. Train leaves Trinity Place Station for Hare and Hound Run at Wellesley.
- 3.00 P.M. 1910 Football v. Dean Academy at Franklin Park.
- 3.00 P.M. 1909 Football v. Mechanic Arts H. S. at Tech Field.
- 8.00 P.M. Civil Engineering Society Smoker, Tech Union.

MONDAY, OCTOBER 22.

- 1.00 P.M. Tech Board Meeting in 30 Rogers.
- 4.00 P.M. Banjo Club Rehearsal in 33 Rogers.
- 4.00 P.M. Mandolin Club Rehearsal in 31 Rogers.
- 4.15 P.M. Glee Club Rehearsal at Tech Union.

## NOTICES.

**Found.**—A pair of gloves. Apply for same at the Bursar's office.

**Exeter Club.**—There will be a meeting of the Exeter Club today at 1 P.M. in 33 Rogers.

**Lost Books.**—Mr. Rand, the Bursar, would like to see immediately any students who have lost books within the last week or two.

**Student Wanted.**—One who would care for the furnace and ashes in a private house for his room and home. Apply at the Bursar's office.

**Lost.**—Will the man who took a Stetson hat, with initials N. B. G. cut in the band, from the library Wednesday morning, return same to Cage, and receive his own.

**1909.**—Any man wishing to become a candidate for the assistant managership of the Varsity Track Team should consult J. T. Tobin, '08, before Saturday, October 20.

**1910.**—Freshman nominations will be received at the Cage until Saturday, Oct. 20, at 1 P.M. Nominations should be sealed and addressed to the 1910 Electoral Committee.

**1908.**—Nominations for President, Vice-President, Secretary, Treasurer, Institute Committee (2 members); Executive Committee (2 members), close at 1 P.M. Saturday, Oct. 20, at the Cage. Nomination papers must be signed by ten men.

**1907.**—Members of 1907 Class can procure ballots for Class Election at the Cage, commencing Monday, Oct. 20. Ballots must be signed and returned to the Cage directed to 1907 Election Committee before 1 P.M. Saturday, Oct. 27. No unsigned ballots will be accepted.

1907 ELECTION COMMITTEE.

## THE TECH

Published every Monday, Wednesday, and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

In charge of this issue: W. RANNEY, 1907.

Friday, October 19, 1906.

The Civil Engineering Society holds its first meeting of the year at the Tech Union on Saturday evening. Some of the other department societies have already held their initial meetings, and a word concerning the place of the technical clubs at the Institute is not untimely.

Professional men like business men are apt to become unsocial because of the pressure their work causes on their time. Unlike the business man, however, the professional man can make and often does make his technical interests and his social enjoyment square with one another congenially. In the larger world beyond Tech's doors there are professional and technical societies, whose names are truly famous and in which membership is much to be desired. It is the department club, which brings together men of similar interests, that with us takes the place of these larger, technical societies. The Civil Engineering Society, like all the others, provides an opportunity for the men to meet each other, and often to meet socially their professors, to hear and frequently to meet men who are expert in some line of engineering, and to combine instruction and pleasure most agreeably. Furthermore, the chance which often comes of discussing some technical question that is presented, is a most excellent practice for us all. Men communicate essentially by speech. And when we are done with Tech, more than one of us will have occasion some time to better his situation by talking, and probably by talking "shop."

For these reasons the department societies are thoroughly worth while cultivating, and every man in the Institute should find place for himself in some one of them. THE TECH wishes the most encouraging success to the Civils and to the others, and trust the attendance at all of their meetings will be large.

### BRITISH EMPIRE DINES.

The British Empire Association held a dinner at the Union on Wednesday evening. The dinner was given in order that the Brit-ishers entering Tech this year might meet the older men and get acquainted with their copatriots in the Institute. Twenty men were present, the following countries being represented: England, Ireland, Canada, Peru, Jamaica, Bermudas, Canada and Nova Scotia.

Dr. W. C. Bray talked to the new men about the work which they might expect to meet at Tech. Messrs. Maybee and Tillard, representing respectively Harvard and

Cambridge, England, spoke, contrasting the life at these two great colleges.

Gimson, '08, told the men of the various activities with which they might with advantage identify themselves in Tech, dwelling more particularly upon athletics and the various publications.

### FRESHMEN LOSE.

The Freshman football team was defeated by South Boston High at Tech Field Wednesday afternoon, 5 to 0, in a ragged game, marred by continual scrapping over decisions by the South Boston men. 1910 had the heavier and better team but was unable to advance the ball consistently or to take advantage of the misplays of their opponents.

Lack of hard scrimmage play against a good second team is very evident in the Freshman team play as the men have the fine points down well, but do not work the team play that wins games. South Boston's touchdown was made on a long run by one of its men after he had recovered a short quarter-back kick. He was downed on the three-yard line but the ball went over on the next down.

In a ragged practice game the Harvard Freshmen defeated the Tech Sophs on Soldier's Field Wednesday, 5 to 0. The Freshmen were slow and seemed unable to follow the ball. The Tech Sophs played a loose, ragged game, and were constantly penalized for off-side and holding.

Hare and Hounds. — On Saturday, Oct. 20, the Cross Country Association holds the last Hare and Hound run before the First Trials for the team. It is imperative that all men who wish to try for the team should get as much practice as possible; so there should be a large turn out for this run. The start is from Wellesley. Take the 2.07 train from Trinity Place. Fare 30 cents.

Room 11 Rogers is now the office of Dr. Tyler, and is no longer open to use of student societies and organizations for meetings.

**A PRINCETON MAN FOR PRESIDENT.**

(Continued from Page 1.)

Oxford, England. He is also prominent in various educational associations. He was the president of the American Philological Association in 1901-2, and has been chairman of the American School of Classic Studies at Rome. He was married May 9, 1889, to Lucy Marshall Fitz Randolph.

Dr. West is a man of fine presence and of most attractive personality, and should he come to the Institute of Technology, there is every reason to believe that he would make a most excellent president. He is especially interested in education from the students' standpoint, and that he is a man of great force and stamina can be seen in the successful installation of the tutorial system at Princeton, in which he was a prime mover. He is a speaker of force and vigor, and has in him all the qualities of a successful leader. While not directly connected with the teaching of applied science at Princeton, he has kept in close touch with that department by his work as Dean of the Graduate School.

The educators of New England and the people of Boston had an excellent opportunity to hear Dean West informally at the recent

meeting of the New England Association of Colleges and Preparatory Schools. He spoke last Friday evening before this meeting on the "Tutorial System in Colleges," and used for his example the system now installed at Princeton. He impressed his hearers, many of whom were professors at the Institute, and his address was spoken very highly of at the close of the exercises.

The search for a successor of Dr. Pritchett has been going on since December of last year. At that time Dr. Pritchett formally announced to the Corporation his intention to retire, after an administration of five years, in order to devote himself exclusively to the work of promoting the objects of the Carnegie Foundation, of which he is president of the Board of Trustees. The selection of the new executive devolved upon the executive committee of the Board of Corporation. The matter was further referred to a special committee consisting of Thomas L. Livermore, Charles A. Stone, and Dr. Francis H. Williams. This sub-committee had gone over a number of names that have been suggested, and about three weeks ago the choice narrowed down to three men. At the last meeting of

A PRINCETON MAN FOR PRESIDENT

(Continued from Page 3.)

the Corporation, no report was ready, but at a meeting of the executive committee since then the name of Professor West was submitted and approved.

Dean West comes to the Institute at a crucial point in its history. Numerous problems will confront the new President. Yearly there has been a large deficit, with the tuition the highest of any college in the country. The alumni have attempted to overcome this difficulty by raising a large income fund, available in fifth parts during the next five years. Financially the Institute is able to keep on its present site, and provide for the present quota of students for a number of years. But each year, the cost of instruction is increasing and it will be only a question of time before Technology will have to seek larger and more modern quarters.

When Dr. West will take up the active duties of the presidency is not yet known. The next meeting of the Corporation is not until December, when his name will be acted upon, but it is likely that he will make himself familiar with the methods of instruction and administration before that time. Dr. Pritchett is very anxious to leave the presidency to another man as work in New York keeps him there most of the time.

After interviewing a number of the prominent men among the Faculty, Corporation, and Alumni it was found that the consensus of opinion was that the choice is an excellent one. None of them could give very definite opinions as they had never met the man personally, and could speak only from hearsay. Dr. H. W. Tyler, Secretary of the Faculty, expressed himself as pleased with the choice, and spoke very highly of Dr. West. Professor Dana P. Bartlett, Secretary of the Institute, who met Dean West during his recent visit to Boston, spoke very favorably of him, and gave his opinion that he was a man of great force and broad culture, and most capable of handling the Institute affairs. Among the Alumni, James P. Munroe would give out no statement on the choice. Frank H. Briggs, head of the Advisory Council on Athletics and a prominent worker among the Alumni, favored the selection.

M. A. H. S. Club. — There will be a meeting of the M. A. H. S. Club for the election of officers, Tuesday, October 23, at 7.30 P.M. at the Union. Refreshments served. Tickets 25c. Please purchase in advance.
